

August 3, 2010

To whom it may concern:

Lynn Novitsky of LAN Communications, Inc. did a free audit of our phone bills after we had made some cost saving changes to our services. She was able to find an additional savings for us and found a problem in the billing with both our old vendor and new vendor that brought us back a substantial credit. We hired her to do the work for the added savings and the credits. Her bill was simply a percentage of the savings and credits. Had we not had the free audit done, we never would have been aware of the additional money available to us. It was well worth the look.

Betsill Brothers Construction recommends the services of Lynn Novitsky of LAN Communications, Inc. for any company looking to save money.

Sincerely,

A handwritten signature in black ink that reads "Michelle Assis".

Michelle Assis
