To whom it may concern:

I would like to personally say that it has been a pleasure to work with Lynn Novitsky of LAN Communications, Inc. After conducting a site inspection and a complete audit of our telephone invoices, Lynn was able to reduce our telephone expense by at least 25%. Lynn accomplish this by resolving tariff violations with our service providers, eliminated service duplication and right sized our communication services to best fit our needs.

Lynn is very professional and always looks out for her client's interest above everything else. I would definitely recommend her services to any company trying to reduce their expenses and increase efficiency, especially during these down economic times.

Sincerely,

Paul Hiranaga
Controller
