Regarding: Services of Lynn Novitsky, LAN Communications, Inc.

To Whom It May Concern:

Lynn Novitsky, representing LAN Communications, Inc. has managed the telecommunications of Wilderness Real Estate since 1990.

Lynn's expertise during the original audit and redesign of our network has afforded us considerable savings on a continual basis. In addition, she has saved us money over the years by catching billing errors and taking advantage of new products and services as they come available.

Lynn helped Wilderness purchase the phone system and coordinated its installation. She also helped in designing and implementing our reservation call center. She has resources for equipment that have saved us over 50% of vendor or broker costs.

I would highly recommend the services of Lynn Novitsky of LAN Communications., Inc. for any company looking for help in managing their telecommunications and reducing their costs.

Sincerely,

Tony Snyder
Owner and General Manager
Wilderness Property Management
